PRODUCT & AIM

My website will showcase a coffee shop, providing detailed information about its diverse selection of beverages and desserts available on the menu. The site will feature six main pages: Home, About, Menu, Testimonials, Gallery, and Contact. The primary goal is to attract a wide audience and ensure a seamless online ordering experience for customers.

TARGET AUDIENCE

1. Coffee Enthusiasts

- Individuals who appreciate high-quality coffee and specialty brews.

2. Students & Remote Workers

- University students and professionals looking for a cozy workspace.
- Interested in a quiet atmosphere with free Wi-Fi and comfortable seating.

3. Casual Café Visitors

- People who enjoy relaxing with a good cup of coffee and dessert.
- Often visit cafés for socializing or a break during the day.

TARGET AUDIENCE

4. Dessert Lovers

- Customers drawn to the shop's variety of sweet treats and pastries.
- May visit primarily for desserts and pair them with beverages.

5. Busy Professionals

- Individuals looking for a quick and convenient coffee pick-up or delivery.
- Prefer an easy online ordering system for their daily caffeine fix.

6. Social Media Users & Food Bloggers

- Customers who enjoy sharing aesthetically pleasing food and drinks online.
- Attracted by visually appealing café settings and well-presented menu items.

FUNCTIONS & FEATURES

UI & UX LAWS BEING USED

- Hick's Law: Simplified various areas of the design to make navigation easier and more intuitive for users.
- Fitts's Law: Used appropriate font sizes to enhance readability and accessibility.
- Aesthetic-Usability Effect: Created a visually appealing interface to encourage user trust and engagement.
- Law of Proximity: Grouped related elements together to help users understand the structure and relationships within the content more easily.

THANK YOU
